

DCC D-Shape Earpiece with Mic and PTT

Page 1 of 1

The plug and some other features may vary from illustrated depending on your radio

Standard Duty D Shaped Earpiece

Key Features

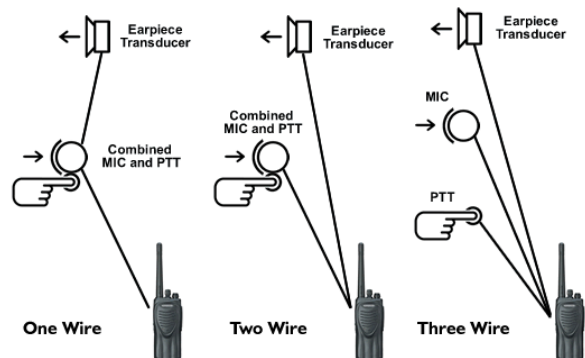

- **Soft Rubber D**
- **Loud Clear Audio**
- **Open to Ambient Sound**
- **Rotating Clothing Clip On MIC-PTT**
- **12 month warranty**

Ideal Applications

- **All Overt Applications**
- **Usable Under Hats, Helmets etc.**
- **Event and Venue Communications**
- **Store Security**
- **Noisy Environments**

A good general purpose, low cost earpiece suitable for all but the largest ears. Available with a plug to fit virtually any radio. It is ideal for light to medium duty uses, two or three working days per week. Supplied with a full 12 month warranty when used as recommended.

Audio is loud and very clear and because the earpiece sits outside the ear it will not block ambient noise. This makes it ideal where situational awareness is important, working with people, moving vehicles, machinery etc.,

One Wire System

The combined MIC-PTT are clipped to the lapel or other clothing.
